New Game Plan

Five St.Helens schools have come together to develop a new game about recycling and the environment, the first workshop was held on 25 January 2011 and Pixel Fountain Ltd helped the children utilise their skills in determining how the new game should operate. The five primary schools taking part were; Nutgrove Methodist, St.Theresas, St.Marys & St.Thomas, Merton Bank and Allanson Street. The children came up with some great innovative ideas and gained some new skills gaming techniques.

The workshop was funded through Merseyside Waste Disposal Authority's Community Fund and also supported by Veolia Environmental Services.

This event was organised by the Local Area Partnership for Creative Learning Group in order to meet one of their objectives within their Climate Change Action Plan which was showcased at the Merseyside Sustainable Schools Conference at St.Helens Town Hall last June 2010.

The ten schools from the LAP group are also running swap shop events from January - March 2011.

For more information about the Climate Change Action Plan, and the 10 schools who are running Swap Shop Events from January - March 2011 contact Bernie Parr, the LAP Manager, tel: 07712669044 or Grace Tatlock, St.Helens Council, tel: 01744 676253, email: gracetatlock@sthelens.gov.uk

The dates of the Swap Shop Events are also advertised on the Planetsthelens.net web site and on the Council's web site under Events Listings.
